

# Nick Long

sound designer

For the purposes of expediting the initial conversation, this concise list has been made for producers of small projects to reference while we discuss how I can play a role in creating your world's sound.

This is not a binding document, as all production's distinct needs will vary, and billing must adapt.

Please Contact me with specifics, to find an agreeable rate. I am always willing to work within a tight budget for a strong project. Thanks for looking. –  
Nick
